Georgetown City Council

From: Michele M. Pogrosky  
Director of Finance

Date: June 29, 2009

Subject: 2009-2010 Approved Budget

The 2009-2010 City of Georgetown approved budget is attached. The Mayor's Message and the Finance Director's Transmittal apply to the Mayor's proposed budget of April 30, 2009. The pages that follow reflect the amended and approved budget of June 23, 2009.

The major change from the proposed budget was that additional money was allocated to the health benefits. Additional revenue is anticipated for the garbage franchise fees so that line item was increased. The payroll tax was increased for potential new development and other anticipated revenue. Property tax was increased by 4%. The insurance premiums decreased for a savings. The travel account, training account, and the fire department's overtime were also decreased. The amount allocated for the purchase of a new sanitation truck was also reduced. These changes covered the additional amount of funds needed to cover the health benefits.

To: Citizens of Georgetown  
Georgetown City Council

From: Mayor Karen Tingle-Sames

Date: April 30, 2009

Subject: 2009-2010 Budget

This is the third year in which I have presented a budget to the City for a new fiscal year. In the six years during which I sat on the City Council, never were the decisions as difficult as those which have been made over the past two years, nor have the stakes ever been so high to our community, our employees and their families, as those decisions we are making in this budget.

As Mayor it is my responsibility to present a balanced budget to the City. I chose to present the budget in this venue, because it has been the business community that has spoken very loudly to the Mayor and Council. You have told us that this is not the time for new taxes; and while I may agree, I do not believe the City can tighten its belt any more than we have in the budget that I am presenting. The down turn in the economy has forced us to make critical adjustments to the budget. We have no other choice. If the Council had chosen to raise all the taxes that were discussed three months ago, we would still not have enough tax revenue to meet all our needs and wants, or to even take us back to the budget we had just a few years ago. So like everyone else, we must handle the City's money as we handle our own budgets, and learn to live on less and live within our means. The budget funds only the bare necessities and includes no fluff. I have used all recurring revenues to balance this budget. All projected revenues have been allocated and accounted for in this document.

I want to express my appreciation to the Council for the professional and cooperative manner in which you have worked with me in preparing this budget. I want to thank the department directors who have spent numerous hours working and re-working their departmental budgets so we would have accurate numbers, new and creative ideas of how to make adjustments, and do the least amount of damage to excellent programs. Thanks also to the Finance Director and the limited staff in the Finance Department for preparing this document. And finally, thanks to the employees. While you may not like all of the changes, cuts or reductions, your help and understanding are also needed. However, sacrifice and understanding are needed if we are to survive these difficult times.

The budget is balanced with the revenues and expenditures for the General Fund at \$17 million. As the Council works on the budget, know that you have not only my cooperation but my support. We have worked together to get to this level, and we will work together to reach a final solution that reflects the needs, concerns, and interests of us all. Thank you again.

## **Finance Director's Transmittal**

In accordance with the City of Georgetown's Budget Ordinance, the Mayor with the assistance of the Department Directors and the Finance Department Staff has prepared the proposed budget for the fiscal year 2009-2010. It is hereby submitted to the City Council Members for review and approval.

The City of Georgetown's General Fund Revenues have been funded over 47% in past years by one major manufacturing company and its subsidiaries, so the City has definitely been affected with the nation's economic changes. This budget reflects a 25.5% reduction over the previous fiscal year's budget. During the past year the City has reduced the work force by 35 employees. The largest revenue line item is revenues from the Revenue Commission. It is budgeted at 9.3 million. Estimates are divided with 8.9 from occupational tax and the balance from net profits.

The budget was balanced with all departments continuing to reduce overhead and make changes to save the City money. Overtime has been reduced over the past year, and was reduced more in this budget. Positions have not been funded and some part-time positions have been proposed to help the departments with services, but at a lower cost. Proposed in this budget is the payment of only five holidays. The other six and one half that have been honored in the past are presented as work days instead of days off. The savings will be approximately \$100,000. The employees will not have a reduction in salaries just a reduction in the extra hours paid in the past and the City will be operating on those days.

The Cardome Centre has been leased to the Cardome Academy Association, Inc. and is not included in this year's budget. For the past two years the City has worked toward combining the Beautification Department with Public Works and the Recycling Department with Sanitation. It has been done in this budget. The Cemetery is working under Public Works and sharing employees, but the expenses are accounted for in the Cemetery Fund.

Medical benefits were changed to provide one benefit amount to all employees. This insurance cost will still be over \$1 million. This reduction will offset the increase in retirement benefits that will continue to increase over the next ten (10) years. Retirement benefits were increased from 13.50% to 16.16% for the non-hazardous and 29.50% to 32.97% for the hazardous. The increases over the next 10 years will have the rates at 22.83% and 48.43% in the year 2018. This is a major expense facing the City for the future. The increase to the City by the year 2018 with the same salaries as the current budget is over \$800,000 more than this year.

The General Fund's revenues and expenditures are budgeted at \$17 million. The total of all funds that includes inter-fund transfers is \$20.9 million. Any amendments to the budget during the year that require an increase in expenditures must include an increase in revenues or a reduction in other expenditures. The City's cash flow will not allow additional use of the fund balance in the budget. The only tax increase new this year is from 5% to 7% on the Insurance Premium Tax.

## **General Fund**

The majority of the City's revenues are collected in the General Fund with the services provided to Citizens accounted for in the fund and reported by Department. The Departments included are General Government, Police Department, Public Works, Fire Department, Building Inspection, Telecommunication, City Council, and the City Clerk's Department. Expenditures for the joint agencies covered under inter-local agreements, the Senior Citizens, and Georgetown Renaissance are also included. The Debt Service for the Aquatic Center and the new refinancing done by the City in 2005 are also included. Transfers to the other funds total \$590,092.

## **General Government**

The Mayor's Office, Human Resource Department, and the Finance Department are included under General Government.

The salaries and operations for these departments are included with a majority of the administrative expenditures for the entire City. Some of the larger expenses are street light utilities, professional services, and the property and casualty insurance. The travel and training expenditures and the computer purchases for the entire City are included with General Government. This was done two (2) years ago to allow HR to monitor the travel and training and the Computer Specialist to make all computer purchases. This has been a savings to the City with better monitoring on the travel and more compatible computers.

There is an increase in the casualty insurance because the allocations to the departments changed and the insurance on the Cardome property will be covered in the General Fund. The Cardome Fund will be closed out at the end of the 2009 fiscal year. The street light utilities are projected to also increase over \$50,000 in the budget, so although cuts were made in most line items there was an increase in the operating expenditures. Operating expenditures total \$1,113,000 and the debt service total is \$778,296. This is the City's total debt service except for the Business Park Phase II Road Bond that was issued in December, 2005. It is accounted for in the Business Park Fund.

## **Police Department**

The City of Georgetown's' Police Department is responsible for preserving the peace, protecting life and property, preventing crime, and enforcing federal and state laws and city ordinances. Because of budget constraints there are no capital equipment or vehicles included in the budget. The total Police Department budget is \$3,840,600. The Police Department has applied for a grant through the COP\$ Hiring Recovery Program to fund six (6) patrol officers. These are not included in the budget.

## **Public Works**

The Public Works Department serves many functions for the City. Administration is responsible for planning, organizing, and directing the department. Road maintenance is responsible for the roads and streets which include the street lights, signage, storm drainage, construction, snow removal, and clean up of the City's festivals and parades. The Public Works' Director also oversees the Sanitation Department and the Cemetery Department. The Beautification Department has been working under Public Works, but it is merged with them in this budget. The City Engineer's office is located at Public Works and the budgetary needs are included with Public Works. Included for capital projects are the mandated storm water projects and the Storm Water Grant Project located at the parking lot by Fire Station #3. There are in-kind contributions required by the City, but the monetary needs are provided by the grant. The total Public Works budget is \$1,344,741

## **Fire Department**

Georgetown's Fire Department has implemented the incident command and management system to not only manage emergency responses, but to also manage the day to day activities of the department. The functions of the department are emergency responses, training, inspections, pre-plan responses of business (fire), car seat education and installation assistance, fire education and prevention activities, and maintenance of stations and apparatus. There are no capital expenditures budgeted but the department is seeking grant monies for a fire truck and fire equipment. The total Fire Department budget is \$3,649,340. All approved full-time firefighter positions are included in this budget.

## **City Council**

The Georgetown City Council is the City's Legislative Body that represents the citizens. They enact all ordinances, appropriate funds, and establish all policies for the City. The proposed budget of the Council is for personnel services and is \$122,990.

## **Building Inspection**

Building Inspection is a joint program with Scott County Fiscal Court that is operated through the City's Budget with the expenditures divided equal. The department is responsible for issuing building permits and inspecting building sites in accordance with applicable regulations. Reviewing building plans and specifications and maintaining permanent records on building permits are also done. The Department also oversees the code enforcement officers, who enforce zoning regulations and ordinances. The total Building Inspection budget is \$545,417.

## **Communication**

The 911 Emergency Center is jointly funded with Scott County Fiscal Court and operated through the City's Budget. The total Communication budget is \$997,027.

## **City Clerk**

The City Clerk is an elected official. The office maintains the permanent records for the City and performs duties required of the custodian of records under the Kentucky Open Records Act (KRS 61.870 to 61.884). The total City Clerk budget is \$208,581.

## **Joint Agencies**

The Agencies are independently operated by a board or by the Scott County Fiscal Court. Costs are shared with the city for: Georgetown-Scott County Parks and Recreation, Georgetown-Scott County Planning Commission, Georgetown-Scott County Emergency Medical Service, Georgetown-Scott County Emergency Management Agency and Office of Homeland Security, Scott County Animal Shelter, and Georgetown-Scott County Electrical Inspection. The total budget of the Joint Agencies is \$3,185,318. All agencies have been reduced. Planning and Zoning and Parks and Recreation are included in the City's Health Benefit Plans and could do as the City and reduce those benefits to help reduce their budgets. The Senior Citizens is not a joint agency, but it is funded by the City and County. The City has budgeted at the same level as last year.

## **Community Service Agencies**

The Community Service Agencies are the non-profit agencies that operate in Georgetown. They have been funded in past years by the City, but this budget does not allow for any allocations.

## **Economic Development**

Georgetown Renaissance, Inc. is the only organization funded under Economic Development and the budget is \$28,000. This is a reduction of \$17,000 from the previous year's budget.

## **Enterprise Funds**

There are two (2) Enterprise Funds that are business type funds that receive revenues and should not depend on the General Fund transfers to operate.

### **Sanitation Fund**

The Sanitation Department has reorganized and made several changes over the past year to be more efficient and to save the City money. These measures will continue into the new budget year.

The Recycling Center has been working under the Public Works/Sanitation umbrella with shared resources, and is included in this year's budget. The previous year's fee increase will allow the Department to purchase a new automated "Helping Hand" Side Loader Garbage Truck with a 120" reach extension at a cost of \$260,000. This will continue the efficiency improvements that started with the Herbie Curbies. The expenditures are budgeted at \$1.8 million with \$100,000 budgeted to stay in the fund balance for the future. Door to door recycling is one of the goals for the future and the balance could start that program.

### **Solid Waste Fund**

The Solid Waste Fund accounts for the maintenance for the landfills. It was the original Sanitation Fund that accounted for the Sanitation Department. The total budget of the Solid Waste is \$174,376. The balloon payment on the landfill is due in 2011 and the amount will be approximately 2.5 million.

## **Special Revenue Funds**

### **Municipal Aid Fund**

The Municipal Aid Fund accounts for the revenues from the Commonwealth of Kentucky for the purpose of maintaining and paving the streets. Revenues are estimated at \$341,536 with expenditures budgeted at \$706,158. The additional expenditures will be paid with the carry over funds. Estimated funds available at the beginning of the budget year are \$376,114

### **LGEA Fund**

Revenues from the Commonwealth of Kentucky for the purpose of street maintenance and public safety are accounted for in this fund. Revenues are estimated at \$21,659 with expenditures budgeted at \$36,548. The additional expenditures will be paid with the carry over funds. Estimated funds available at the beginning of the budget year are \$55,406

### **Drug Fund**

The Drug Fund accounts for Federal Revenues that are designated for specific expenses. The funds carry over from year to year. Revenues and expenditures are budgeted at \$51,800. The Georgetown Police Department manages this fund to purchase additional equipment that is needed. The City is planning on purchasing a vehicle for the canine unit with the Drug Funds during this fiscal year.

### **Cemetery Fund**

The Georgetown Cemetery's operations are accounted for in this fund. Expenditures are budgeted at \$241,279 to balance out the expected revenues. The interest earned in the Cemetery Trust Fiduciary Account is transferred to the fund and included in revenue. The County is responsible for one-half of the net operating loss each year, so revenue from the City's General Fund and the County is used to balance.

## **Public Safety Fund**

The Public Safety Fund accounts for Grants for the Police Department and the Fire Department. The Police Department has applied for grants but at this time it is not known if the City will be a recipient. These are not included. The nine (9) firefighters' salaries and benefits under the Safer Grant are included. During this year, the City is estimating the Safer Grant to pay \$146,638 on the total \$550,611 expenditures. During the 2010-2011 budget, the City would receive the final payment from the Safer Grant of approximately \$59,000.

## **Business Park Fund**

The Business Park Fund accounts for the property sales and the ongoing development and maintenance at the Lanes Run Business Park. The Business Park Authority Board approves all property sales and construction. There is no budgeted revenue for the fiscal year and the only expenditures are for the debt service. Transfers from the General Fund will be made to balance the account. The total budget for the Business Park Fund is \$113,980. The Business Park entered into three (3) agreements with Kentucky American Water Company to install water lines. Two (2) were done in 2004 and one (1) in 2006. If the usage did not pay for this service, then the City was to repay. The city paid \$36,542 on the first agreement in 2008 and started payments on the second agreement in 2008. The third agreement will be due in the spring of 2010 and payments on it are budgeted in this budget. The debt service for the roads and utilities totals \$68,750.

## **General Fund Actuals/Budgets 2005-2010**

On page 55, the actual revenues and expenditures for the fiscal years ended June 30, 2005 through June 30, 2008 are listed. The projections for fiscal year ending June 30, 2009 are also included and then the budget numbers for this budget.

The salaries and operations for the Mayor's Office, Human Resources, and the Finance Department are included and a majority of the administrative expenditures for the entire City. Some of the larger expenditures are street light utilities, professional services, and the property and liability insurances.

The increase in employee benefits from the Mayor's proposed budget in addition to the health benefits is the reimbursement to the unemployment account.
